HAWK X Series

Enterprise Edition

Models: Xe and Xe+

Part No: AITS25HWX [BASE Version: AITS24HWX, AITS23HWX]

Key Features

Feature	Description
	Equipped with latest Intel Xeon / AMD EPYC processors with ECC memory support up to 4/6/8 TB, ensuring reliability and performance for mission-critical workloads. Single / Dual / Quad Sockets.
Redundant Power Supply	80+ Platinum certified hot-swappable power supplies for maximum uptime and energy efficiency. Optional Redundant set PSU available for X series model.
Flexible Storage & Expansion	Support for SAS, SATA, SSD and NVMe drives with RAID options. Xe model offers up to 24 bays; Xe+ supports up to 36 bays for data center scalability.
Advanced Security	Integrated TPM 2.0 and Secure Boot. Xe model further supports Zero Trust (ZTNA) for compliance with government-Industrial grade deployments.
Integrated Remote Management	Built-in BMC with IPMI 2.0 and Redfish for out-of-band management, enabling administrators to monitor, troubleshoot, and update remotely. OCP DC-SCM*
Disaster Recovery & High Availability	Xe/Xe+ model supports full DR with RPO/RTO objectives, automated failover and backup recovery for uninterrupted services.
Certified Compliance	Meets global standards BIS, CE, FCC etc for telecom and government deployments.
